PUBLIC NOTICE

Michigan Department of Natural Resources, Parks and Recreation Division, Rose Lake District Office, Joseph Strach, 8562 East Stoll Road, East Lansing, MI 48823, has applied to this office for a permit under authority of Part 301, Inland Lakes and Streams, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended. The applicant proposes to install 50 cubic yards of riprap, excavate up to 24 cubic yards of material and place 100 cubic yards of backfill along 385 feet of shoreline on Woodland Lake for the purpose of shore protection. The project is located in T2N, R5E, Section 19, Genoa Township, Livingston County, Michigan, in accordance with plans attached to this notice.

THIS NOTICE IS NOT A PERMIT

The proposed project may also be regulated by one or more additional parts of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended, that are administered by the Land and Water Management Division (LWMD). The requirements of applicable parts are considered in determining if it is in the public interest to issue a permit.

When a permit application is received requesting authorization to work in or over the inland waters of the State of Michigan, pursuant to PART 301, INLAND LAKES AND STREAMS, OF THE NATURAL RESOURCES AND ENVIRONMENTAL PROTECTION ACT, 1994 PA 451, AS AMENDED, the Act provides that the department submit copies for review to the department of public health, the city, village or township, and the county where the project is to be located, the local soil conservation district, any local watershed council organized under Part 311, and the local port commission. Additional notification is provided to certain persons as required by statute or determined by the department.

Unless a written request is filed with the department within the 20-day public comment period, the department may make a decision on the application without a public hearing. The determination as to whether a permit will be issued or a public hearing held will be based on evaluation of all relevant factors defined in Sections 30106 and 30311, or permit criteria defined by other appropriate Parts of the NREPA. These Sections address the effect of the proposed work on the public trust or interest including navigation, fish, wildlife, and water quality among other criteria. Public comments received will also be considered.

Dear Mr. Koss:

SUBJECT: DEQ File No. 07-47-0023-P
T2N, R5E, Section 28, Genoa Township, Livingston County

The Department of Environmental Quality (Department) has reviewed the above referenced application for permit pursuant to Part 301, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Part 301). Based upon our findings, the Department could not authorize the project as currently proposed.

The Department has considered, among other pertinent concerns, the purpose and intended use of the project in relation to its placement and resource impact. The Department would consider as a reasonable and prudent alternative:

To locate the rock and boulder retaining wall landward of the normal lake level waterline thus avoiding impacts to established aquatic and emergent vegetation along the shoreline.

Should this alternative be acceptable, or if you wish to submit another comparable alternative, you are requested to send detailed revised plans to this office. Each drawing should include a scale, the file number, and your name.

If you have any questions please contact me at the Lansing District Office.

Sincerely,

MICHIGAN TOWNSHIPS ASSOCIATION

Dear Township Official:

For weeks, various Lansing media, lobbyists and legislators have floated a variety of local government “reforms” that are purported to reduce state expenditures. Unfortunately, some of these reforms merely push costs onto local governments, and some misguided ideas would actually *increase* the cost of government. While MTA continues to gather information on those proposals likely to be seriously considered, much of what we hear appears to be rumor or “trial balloons.” Consequently, we have avoided unnecessarily alarming our membership by hyping proposals that appear to have little legislative support.

Nonetheless, many of the “reforms” we are hearing about have a distinct anti-township bias. Policy “pundits”—including large city newspaper editorial writers and some interest groups—cavalierly see township government as expendable. Ignoring township provisions of the Michigan Constitution, they express a lack of awareness or an unwillingness to acknowledge how efficiently, economically and effectively townships protect public safety and enhance the quality of life for more than half of Michigan’s residents. Others, in advocating for a new level of regional government, see the current sheer number of townships as an impediment to state control over local matters, such as land use. We have even read editorials denigrating townships because they are generally governed by “amateurs,” rather than by trained public administrators.

Among the ideas circulating in Lansing are abolishing townships entirely or state-imposed consolidations of townships that have smaller populations. Some lawmakers have singled out “small townships, under 5,000 population” for elimination or curtailment of their statutory duties. Out of Michigan’s 1,242 townships, 1,038 are under 5,000 residents—as are the two-thirds of cities and villages. Curiously, cities and villages—regardless of size or economic condition—and counties are somehow avoiding legislative scrutiny. Further revenue sharing cuts—both statutory and even constitutional—have been suggested through legislative action or constitutional amendments. And other reformers have suggested holding another Constitutional Convention, which would once again expose townships to abolishment.

Amidst all of the rumors and false information there appears to be a very high probability that legislation will be introduced in the next several weeks to shift election administration, tax collections and assessing to the counties. What is not clear is whether these proposals will be voluntary or mandatory, whether they will apply to all local governments or just townships, or even if they will apply to *all* townships. We are unaware of any studies that support the premise that counties can perform these services at less cost, which indicates that cost savings are merely assumed by their proponents, or the proposals are being advanced without regard to either the cost of implementation or the long-term financial implications.

It is becoming clear to us that many Lansing policy-makers desperately need more knowledge on how township government operates in their own House or Senate districts, and—even more important—they need to be shown the commitment of their constituents to township government. While MTA will continue to explain to legislators how various proposals broadly impact township government, the representative and senator who represent your township need to immediately hear from *you*.

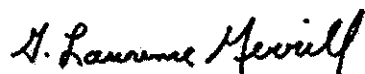

S E R V I N G 1 2 4 2 T O W N S H I P S A N D 6 5 0 0 O F F I C I A L S

To ensure that the Michigan Legislature and governor do not inflict unnecessary and irrevocable harm to more than half of Michigan's residents by damaging or destroying their accountable, efficient and economical citizen-led township government, we strongly urge you to immediately schedule face-to-face meetings with your senator and representative. If your schedule will not permit such meetings, please call them instead. Among the points worth raising:

- "Reforms" that deny your township residents the same opportunity for local control, or that do not give township residents the same state financial support for local services (revenue sharing, payments in lieu of taxes, and other state reimbursements for tax abatements) as other local governments receive are unacceptable.
- "Reforms" that would move responsibilities such as tax collections, elections and assessment administration from one unit of government to another should be substantiated by unbiased, competent studies documenting the financial advantages and acknowledging adverse impacts on residents rather than unsupported assumptions or blind faith.
- Also mention the additional, non-statutory services your township provides to residents, such as fire protection, law enforcement, land use, parks and recreation, water and sewer services, etc. Indicate how upset your residents would be to have those services taken away or controlled by others who do not live in the community and who did not pay taxes to acquire the land, buildings and equipment purchased by the township from township tax dollars.
- Local governments—and townships in particular—have already taken more than their proportional share of state cuts. Sales taxes are paid by everyone and should be returned equitably to all communities. Inform your legislators how much—if any—*statutory* revenue sharing you currently receive, including what services it supports. State aid reductions have already caused property taxes to rise, and will continue to do so.
- Do not punish townships, which consistently demonstrate fiscal responsibility.

Given the dire situation of Michigan state government finances and the degree of desperation to push state expenditures on to others and to only make cuts that involve minimal adverse political consequences to lawmakers, it is vitally important that *every* legislator be contacted—not just by a few township officials, but by *hundreds*. Please do not leave this important mission to other township officials. Your direct contact with your legislators could be the difference between preserving citizen-led local government or a future Michigan without township government that we will all regret—but deserve because we let it happen.

Sincerely,

G. Lawrence Merrill

To Whom It May Concern:

The undersigned is providing the following information on behalf of the Michigan Conference of Seventh-day Adventists, which is headquartered in Lansing, Michigan. The Seventh-day Adventist Church operates a door-to-door religious literature ministry. As such, this religious literature ministry is protected by the First Amendment to the United States Constitution. While this type of activity is subject to reasonable time and manner of restrictions, such activities may not be banned, excessively burdened, or made subject to governmental discretion. See Cantwell v Connecticut, 310 U.S. 296 (1940) and Murdoch v Pennsylvania, 319 U.S. 105 (1943).

As Justice Douglas wrote in Murdoch, supra, 319 U.S. at 108-109:

The hand distribution of religious tracts is an age old form of missionary evangelism - as old as the history of printing. It has been a potent force in various religious movements down through the years. This form of evangelism is utilized today on a large scale by various religious sects whose colporteurs carry the Gospel to thousands upon thousands of homes and seek through personal visitations to win adherents to their faith. It is more than preaching; it is more than distribution of religious literature. It is a combination of both. Its purpose is as evangelical as the revival meeting. This form of religious activity occupies the same high estate under the First Amendment as do worship in the churches and preaching from the pulpits. It has the same claim to protection as the more orthodox and conventional exercises of religion.

Justice Douglas added that "the mere fact that the religious literature is 'sold' by itinerant preachers rather than 'donated' does not transform evangelism into a commercial enterprise." Murdoch, supra, 319 U.S. at 111.

The Seventh-day Adventist Church does, however, realize that a city has the right to make reasonable regulations in this sensitive area. Thus the church's Literature Evangelists are willing to register with the city, giving names and addresses of both the Literature Evangelists and their supervisors, and also to provide the times they will be visiting homes in the city and related information that will allow the city to be properly informed as to their activities.

On behalf of the Seventh-day Adventist Church and all friends of religious freedom, we offer our appreciation for your time and understanding.

Sincerely,

Vernon L. Alger

Dear Clerk Skolarus:

At Comcast, we have a long-standing commitment to Michigan. Our 4,400 employee workforce will be expanded by 500 new jobs in 2007. Combined with our \$2 billion investment in broadband fiber technology over the past decade, Comcast prides itself on being a major contributor to Michigan's economic growth. While the legislative landscape and economic climates in Michigan are changing, Comcast continues to be a creator of jobs, an investor in technology and a partner to local communities. This community partnership is exemplified by our service to Michigan schools.

Comcast currently invests up to \$4 million annually by offering services that support our schools and life long learning. Comcast will continue with these investments by supporting state accredited, K-12 schools and public libraries in the following ways:

- By offering and maintaining existing free video drops;
- By continuing to offer and maintain independent high-speed Internet connections;
- By continuing to offer courtesy standard installation of these services, as available.

Additionally, we at Comcast will continue to use our resources to benefit schools, families and life-long learners by providing the following services:

- Comcast will continue to provide – at no extra cost – more than 500 hours of commercial-free, educational programming from more than 40 national cable networks (such as *Discovery*, *CNN*, *A&E*, *The Weather Channel*) through our Cable in the Classroom initiatives;
- We will continue to offer free curriculum materials to schools – an important resource in today's budget-strapped educational environment;
- We will also continue to work with local PTAs and parent groups by offering educational opportunities to *Control Your TV*, manage parental controls and implement Internet safety features.

Comcast's investments in education extend beyond the classroom in a variety of ways:

- Many of Comcast's 4,400 Michigan employees are involved in mentoring programs, volunteerism, participating in book drives, partnering on special events and supporting literacy programs in the communities we serve here in Michigan.
- Comcast will award \$135,000 to Michigan high school students through our Leaders & Achievers Scholarship program in 2007. More than \$500,000 in scholarships has been awarded since 2004.

Comcast recognizes our role as the leader in broadband technology and how our resources can benefit everyone we serve – not just a few. This commitment remains a high priority since we believe that technology can be a powerful tool in advancing education priorities and standards. While our competitors talk about emulating our community investment programs, Comcast is pleased to be the only Michigan technology company that provides residents with access to broadband Internet, digital / interactive video and digital voice services through one wire, on one bill, at one low price.
