

## MEMORANDUM

TO: Township Board

FROM: Michael Archinal 

DATE: 12/4/09

RE: Wildwood Paving Special Assessment District

You will recall that the last time this matter was discussed we had a fairly large number of property owners in the audience and that there appeared to be some confusion regarding the S.A.D. process and the petitions some of them had signed. A letter was sent to the residents explaining the process and encouraging them to attend the 12/7/09 meeting. Since this matter was before you we have received a large number of letters requesting that their petition signatures be rescinded. A table that follows lists the properties and identifies them as supporting the project, opposing the project or asking that their signatures be rescinded. Out of 57 properties 41 are either opposed or have asked that their petition be rescinded.

While the legal status of removing a signature from a petition after it is signed is uncertain, Public Act 188 places the decision to proceed or not proceed in your hands. I respectfully ask that you review my letter to affected residents dated 9/23/09 before making this determination.

Please consider the following action:

**Moved by \_\_\_\_\_, supported by \_\_\_\_\_, to *not* proceed with the proposed Wildwood Paving Special Assessment District.**

# Genoa Charter Township

2911 Dorr Road • Brighton, Michigan 48116 • (810) 227-5225 • Fax (810) 227-3420 • [www.genoa.org](http://www.genoa.org)

September 23, 2009

Dear Wildwood Area Resident,

On September 21, 2009 several of your neighbors attended a Township Board meeting and expressed opposition and/or confusion related to the proposed paving project at the meeting's Call to the Public. Additionally our office has received a number of email and telephone inquiries related to this subject. The purpose of this correspondence is to clarify the status of the proposed district and explain the process by which such projects are approved.

Public Act 188 of 1954 is the statute that allows Michigan townships to assess the costs of road improvements to benefiting properties by levying taxes. You can view Public Act 188 through this website: [www.legislature.mi.gov](http://www.legislature.mi.gov). The Act requires public hearings and statutory notices. At the public hearings you will be able to express your support or opposition to the project and ask any questions you may have. Much of the confusion seems to be related to the assumption that the district has somehow already been approved and that no notice was given. This is not the case. There also seems to be confusion related to how the costs for this project are to be spread.

In July the Township received petitions signed by 66.66% of the affected properties supporting the project. Because of drainage concerns, especially on the western end of Wildwood, it was recommended that survey work be performed prior to final design. On September 8 the Board approved a contract with our Engineering Consultant to perform this work. This step is common due diligence but may have lead to the misunderstanding that the Township had somehow "approved" the project without public input.

After the Township receives a petition for the establishment of a special assessment district several steps have to occur before anything shows up on your taxes. First the petitions are formally received by the Township Board and a Public Hearing is set. This public hearing is tentatively set for December 7, 2009 at 6:30 p.m. Per Public Act 188 you will receive a notice from the Township in your mail. The notice will also appear in the Livingston County Press and Argus, on the Township's website ([www.genoa.org](http://www.genoa.org)) and posted at the Township Hall. The Public Hearings are your opportunity to express support or opposition and to ask any questions you may have. You are encouraged to attend or submit your comments in writing.

The conceptual total project cost is \$372,000. The Township has a policy in place that provides for Township at-large participation where certain criteria are met. This policy permits, but does not obligate, Township participation. The policy states in substantive part:

Supervisor  
Gary T. McCririe

Clerk  
Paulette A. Skolarus

Treasurer  
Robin L. Hunt

Manager  
Michael C. Archinal

Trustees

H. James Mortensen • Jean W. Ledford • Todd W. Smith • Steven Wildman

- The township may financially support the public road special assessment district up to 25% of the total project with a maximum of \$1,000.00 per parcel contribution from the General Fund.
- Petitions from residents asking for the township contribution of general funds shall require a "super" majority of signatures (i.e. at least 66%) from property owners within the district, unless the board determines that there is some compelling necessity to waive the requirement.

Applying this policy results in a Township at-large contribution of \$57,000 leaving a balance of \$315,000. Apportioning \$315,000 on the 57 parcels yields a pro-rata share of \$5,526.32. Public Act 188 allows for the actual project cost and assessment to exceed the estimate by 10%, so the per parcel cost could be as high as \$6,079.

The Township maintains a revolving loan fund to front the money for this type of special assessment. If the improvement is made, the contractor gets paid by the Township's revolving loan fund, the properties are assessed over a period of years and the fund gets reimbursed. Road assessments are typically spread over a period of three to five years. Some residents have asked why we cannot sell bonds with a twenty year payoff such as when sewers were installed. Because of the administrative costs associated with going to the bond market it is not economically sound practice unless the cost of the project exceeds \$1,000,000. Another benefit to self funding is that the Township does not charge interest to fund the project.

Many of the inquiries have been related to how the district can be opposed or how someone can remove their name from the petition. Once a petition is signed we verify ownership and presume the signatures are valid. Because the petition was signed by owners representing a majority of the properties there is no way I am aware of for the petition to be invalidated.

Because of the concerns expressed and the questions we have received I am encouraging those who do not want the project to go forward to contact the Township in writing or attend the Public Hearing and voice your opposition. Public Act 188 permits, but does not obligate, the Township Board to proceed with the project. I can not speak for the Board but I am confident they will consider all information put before them in deliberating this matter and deciding whether or not to move forward. I hope this letter has helped to clarify the situation. Should you have any questions please feel free to contact me at 810.227.5225 or [mike@genoa.org](mailto:mike@genoa.org).

Best regards,

  
Michael Archinal, Manager

Cc: Township Board

## MEMORANDUM

TO: Township Board  
FROM: Mike Archinal   
DATE: 9/4/09  
RE: Wildwood Drive Paving

Attached you will find a Professional Services Proposal from Tetra Tech for a proposed special assessment district. We have received a petition signed by 66.66% of the affected property owners for paving Wildwood Drive and Eckles. Because of the lack of storm sewers, grades and extremely small lots this project will be significantly more complicated than previous paving efforts around Lake Chemung. Complete survey is recommended to assist in design to handle drainage issues.

We have walked the site with the Road Commission, Tetra Tech and the Township Engineer. The signed petitions include an estimated project cost of \$372,000. We are confident that this estimate is close enough to proceed with the project. Please consider the following action:

**Moved by \_\_\_\_\_, supported by \_\_\_\_\_, to approve a Professional Survey Proposal for Wildwood Drive paving in the amount of \$20,000 as submitted by Tetra Tech.**

## TETRA TECH

September 1, 2009

Mr. Michael Archinal  
Genoa Township  
2911 Dorr Road  
Brighton, MI 48116

**Re: Genoa Township Wildwood Drive Paving  
Professional Survey Services Proposal**

Dear Mr. Archinal:

In response to your request, we have prepared the following proposal for performing a topographic survey of Wildwood Drive from its western intersection with Grand River Avenue near the public park to its easterly terminus at Grand River near Crystal Gardens. Approximately 3600 linear feet of roadway encompasses the project area. The gravel roadway as it exists will be surveyed with the product being suitable for preparing plans for paving the road surface. Based on our field meeting with the Livingston County Road Commission, we are not developing property lines or right of way for the area as part of this effort. Identifying encroachments onto private lands is not part of this scope of services.

We propose the following scope of services to perform the topographic survey of the road area.

### **Scope of Services**

Tt will perform the following surveying services:

- Perform a topographic survey which will extend 15 to 20 feet beyond edge of traveled roadway to the face of significant retaining walls or to the face of privacy fences or structures, whichever is the lesser distance.
- Request utility plans from local service providers and show same on finished survey drawings.
- Establish bench marks at approximate 600 foot intervals throughout the project area for future construction purposes.
- Prepare a 1"=40' scale drawings of the project area with a 1 foot contour interval.

### **ASSUPMTIONS, REQUIREMENTS AND EXCLUSIONS TO SCOPE**

The cost to perform the above described surveying services is based on the following assumptions being true, the following requirements being met and/or the following being excluded from the project services:

- The Township will notify the landowners of the properties adjacent to the project area that Tt staff will be entering their yards adjacent to the roadways in order to perform the topographic survey herein described.

**TETRA TECH**

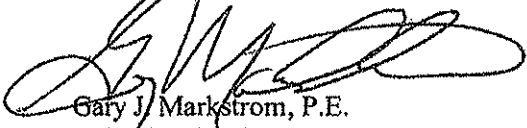

- *No right-of-way location will be determined for any portion of the proposed project area. The Township is aware that the roadway may encroach onto private lands and any and all liability resulting from the paving, occupying and or disturbing of private property is solely the responsibility of the Township and Livingston County Road Commission.*
- *An Amended Plat / Assessor's Plat / Re-Plat correcting the right-of-way locations to reflect the existing right-of-way as occupied is not included in the scope of services.*

**Compensation**

Compensation for performing the work of this proposal will be invoiced as a lump sum fee for the surveying services of \$20,000. If this proposal is acceptable, please sign in the space provided and return a copy for our authorization to proceed. Once authorized, the work will be completed within 30 days. Our Standard Terms and Conditions are attached and considered a part of this proposal.

We appreciate the opportunity to provide this service to the Township. If you have any questions please call.

Sincerely,

Gary J. Markstrom, P.E.  
Unit Vice-President

## Engineering Services Standard Terms & Conditions

**Services** Consultant will perform services for the Project as set forth in the provisions for Scope of Work/Fee/Schedule in the proposal and in accordance with these Terms & Conditions. Consultant has developed the Project scope of service, schedule, and compensation based on available information and various assumptions. The Client acknowledges that adjustments to the schedule and compensation may be necessary based on the actual circumstances encountered by Consultant in performing their services. Consultant is authorized to proceed with services upon receipt of an executed Agreement.

**Compensation** In consideration of the services performed by Consultant, the Client shall pay Consultant in the manner set forth above. The parties acknowledge that terms of compensation are based on an orderly and continuous progress of the Project. Compensation shall be equitably adjusted for delays or extensions of time beyond the control of Consultant. Where total project compensation has been separately identified for various tasks, Consultant may adjust the amounts allocated between tasks as the work progresses so long as the total compensation amount for the project is not exceeded.

**Fee Definitions** The following fee types shall apply to methods of payment:

- **Salary Cost** is defined as the individual's base salary plus customary and statutory benefits. Statutory benefits shall be as prescribed by law and customary benefits shall be as established by Consultant employment policy.
- **Cost Plus** is defined as the individual's base salary plus actual overhead plus professional fee. Overhead shall include customary and statutory benefits, administrative expense, and non-project operating costs.
- **Lump Sum** is defined as a fixed price amount for the scope of services described.
- **Standard Rates** is defined as individual time multiplied by standard billing rates for that individual.
- **Subcontracted Services** are defined as Project-related services provided by other parties to Consultant.
- **Reimbursable Expenses** are defined as actual expenses incurred in connection with the Project.

**Payment Terms** Consultant shall submit invoices at least once per month for services performed and Client shall pay the full invoice amount within 30 days of the invoice date. Invoices will be considered correct if not questioned in writing within 10 days of the invoice date. Client payment to Consultant is not contingent on arrangement of project financing or receipt of funds from a third party. In the event the Client disputes the invoice or any portion thereof, the undisputed portion shall be paid to Consultant based on terms of this Agreement. Invoices not in dispute and unpaid after 30 days shall accrue interest at the rate of one and one-half percent per month (or the maximum percentage allowed by law, whichever is the lesser). Invoice payment delayed beyond 60 days shall give Consultant the right to stop work until payments are current. Non-payment beyond 70 days shall be just cause for termination by Consultant.

**Additional Services** The Client and Consultant acknowledge that additional services may be necessary for the Project to address issues that may not be known at Project initiation or that may be required to address circumstances that were not foreseen. In that event, Consultant notify the Client of the need for additional services and the Client shall pay for such additional services in an amount and manner as the parties may subsequently agree.

**Site Access** The Client shall obtain all necessary approvals for Consultant to access the Project site(s).

**Underground Facilities** Consultant and/or its authorized subcontractor will conduct research and perform site reconnaissance in an effort to discover the location of existing underground facilities prior to developing boring plans, conducting borings, or undertaking invasive subsurface investigations. Client recognizes that accurate drawings or knowledge of the location of such facilities may not exist, or that research may reveal as-built drawings or other documents that may inaccurately show, or not show, the location of existing underground facilities. In such events, except for the sole negligence, willful misconduct, or practice not conforming to the Standard of Care cited in this Agreement, Client agrees to indemnify and hold Consultant and/or its Subcontractor harmless from any and all property damage, injury, or economic loss arising or allegedly arising from borings or other subsurface penetrations.

**Regulated Wastes** Client is responsible for the disposal of all regulated wastes generated as a result of services provided under this Agreement. Consultant and Client

mutually agree that Consultant assumes no responsibility for the waste or disposal thereof.

**Contractor Selection** Consultant may make recommendations concerning award of construction contracts and products. The Client acknowledges that the final selection of construction contractors and products is the Client's sole responsibility.

**Ownership of Documents** Drawings, specifications, reports, programs, manuals, or other documents, including all documents on electronic media, prepared under this Agreement are instruments of service and are, and shall remain, the property of Consultant. Record documents of service shall be based on the printed copy. Consultant will retain all common law, statutory, and other reserved rights, including the copyright thereto. Consultant will furnish documents electronically; however, the Client releases Consultant from any liability that may result from documents used in this form. Consultant shall not be held liable for reuse of documents or modifications thereof by the Client or its representatives for any purpose other than the original intent of this Agreement, without written authorization of and appropriate compensation to Consultant.

**Standard of Care** Services provided by Consultant under this Agreement will be performed in a manner consistent with that degree of care and skill ordinarily exercised by members of the same profession currently practicing under similar circumstances. Consultant makes no warranty or guaranty, either express or implied. Consultant will not be liable for the cost of any omission that adds value to the Project.

**Period of Service** Consultant shall perform the services for the Project in a timely manner consistent with sound professional practice. Consultant will strive to perform its services according to the Project schedule set forth in the provisions for Scope of Work/Fee/Schedule above. The services of each task shall be considered complete when deliverables for the task have been presented to the Client. Consultant shall be entitled to an extension of time and compensation adjustment for any delay beyond Consultant control.

**Insurance and Liability** Consultant shall maintain the following insurance and coverage limits during the period of service. The Client will be named as an additional insured on the Commercial General Liability and Automobile Liability insurance policies.

Worker's Compensation - as required by applicable state statute

Commercial General Liability - \$1,000,000 per occurrence for bodily injury, including death and property damage, and \$2,000,000 in the aggregate

Automobile Liability - \$1,000,000 combined single limit for bodily injury and property damage

Professional Liability (E&O) - \$1,000,000 each claim and in the aggregate

The Client shall make arrangements for Builder's Risk, Protective Liability, Pollution Prevention, and other specific insurance coverage warranted for the Project in amounts appropriate to the Project value and risks. Consultant shall be a named insured on those policies where Consultant may be at risk. The Client shall obtain the counsel of others in setting insurance limits for construction contracts.

**Indemnification** Consultant shall indemnify and hold harmless the Client and its employees from any liability, settlements, loss, or costs (including reasonable attorneys' fees and costs of defense) to the extent caused solely by the negligent act, error, or omission of Consultant in the performance of services under this Agreement. If such damage results in part by the negligence of another party, Consultant shall be liable only to the extent of Consultant's proportional negligence.

**Dispute Resolution** The Client and Consultant agree that they shall diligently pursue resolution of all disagreements within 45 days of either party's written notice using a mutually acceptable form of mediated dispute resolution prior to exercising their rights under law. Consultant shall continue to perform services for the Project and the Client shall pay for such services during the dispute resolution process unless the Client issues a written notice to suspend work.

**Suspension of Work** The Client may suspend services performed by Consultant with cause upon fourteen (14) days written notice. Consultant shall submit an invoice for services performed up to the effective date of the work suspension and the Client shall pay Consultant all outstanding invoices within fourteen (14) days. If the work suspension exceeds thirty (30) days from the effective work suspension date, Consultant shall be entitled to renegotiate the Project schedule and the compensation terms for the Project.

**Termination** The Client or Consultant may terminate services on the Project upon seven (7) days written notice in the event of substantial failure by the other party to fulfill its obligations of the terms hereunder. Consultant shall submit an invoice for services performed up to the effective date of termination and the Client shall pay Consultant all outstanding invoices within fourteen (14) days. The Client may withhold an amount for services that may be in dispute provided that the Client furnishes a written notice of the basis for their dispute and that the amount withheld represents a reasonable value.

**Authorized Representative** The Project Manager assigned to the Project by Consultant is authorized to make decisions or commitments related to the project on behalf of Consultant. Only authorized representatives of Consultant are authorized to execute contracts and/or work orders on behalf of Consultant. The Client shall designate a representative with similar authority.

**Project Requirements** The Client shall confirm the objectives, requirements, constraints, and criteria for the Project at its inception. If the Client has established design standards, they shall be furnished to Consultant at Project inception. Consultant will review the Client design standards and may recommend alternate standards considering the standard of care provision.

**Independent Consultant** Consultant is and shall be at all times during the term of this Agreement an independent consultant and not an employee or agent of the Client. Consultant shall retain control over the means and methods used in performing Consultant's services and may retain subconsultants to perform certain services as determined by Consultant.

**Compliance with Laws** Consultant shall perform its services consistent with sound professional practice and endeavor to incorporate laws, regulations, codes, and standards applicable at the time the work is performed. In the event that standards of practice change during the Project, Consultant shall be entitled to additional compensation where additional services are needed to conform to the standard of practice.

**Permits and Approvals** Consultant will assist the Client in preparing applications and supporting documents for the Client to secure permits and approvals from agencies having jurisdiction over the Project. The Client agrees to pay all application and review fees.

**Limitation of Liability** In recognition of the relative risks and benefits of the project to both the Client and Consultant, the risks have been allocated such that the Client agrees, to the fullest extent permitted by law, to limit the liability of Consultant and its subconsultants to the Client and to all construction contractors and subcontractors on the project for any and all claims, losses, costs, damages of any nature whatsoever or claims expenses from any cause or causes, so that the total aggregate liability of Consultant and its subconsultants to all those named shall not exceed \$50,000 or the amount of Consultant's total fee paid by the Client for services under this Agreement, whichever is the greater. Such claims and causes include, but are not limited to negligence, professional errors or omissions, strict liability, breach of contract or warranty.

**Consequential Damages** Neither the Client nor Consultant shall be liable to the other for any consequential damages regardless of the nature or fault.

**Waiver of Subrogation** Consultant shall endeavor to obtain a waiver of subrogation against the Client, if requested in writing by the Client, provided that Consultant will not increase its exposure to risk and Client will pay the cost associated with any premium increase or special fees.

**Environmental Matters** The Client warrants that they have disclosed all potential hazardous materials that may be encountered on the Project. In the event unknown hazardous materials are encountered, Consultant shall be entitled to additional compensation for appropriate actions to protect the health and safety of its personnel, and for additional services required to comply with applicable laws. The Client shall indemnify Consultant from any claim related to hazardous materials encountered on the Project except for those events caused by negligent acts of Consultant.

**Cost Opinions** Consultant shall prepare cost opinions for the Project based on historical information that represents the judgment of a qualified professional. The Client and Consultant acknowledge that actual costs may vary from the cost opinions prepared and that Consultant offers no guarantee related to the Project cost.

**Contingency Fund** The Client acknowledges the potential for changes in the work during construction and the Client agrees to include a contingency fund in the Project budget appropriate to the potential risks and uncertainties associated with the Project. Consultant may offer advice concerning the value of the contingency fund; however, Consultant shall not be liable for additional costs that the Client may incur beyond the contingency fund they select unless such additional cost results from a negligent act, error, or omission related to services performed by Consultant.

**Safety** Consultant shall be responsible solely for the safety precautions or programs of its employees and no other party.

**Information from Other Parties** The Client and Consultant acknowledge that Consultant will rely on information furnished by other parties in performing its services under the Project. Consultant shall not be liable for any damages that may be incurred by the Client in the use of third party information.

**Force Majeure** Consultant shall not be liable for any damages caused by any delay that is beyond Consultant's reasonable control.

**Waiver of Rights** The failure of either party to enforce any provision of these terms and conditions shall not constitute a waiver of such provision nor diminish the right of either party to the remedies of such provision.

**Warranty** Consultant warrants that it will deliver services under the Agreement within the standard of care. No other expressed or implied warranty is provided by Consultant.

**Severability** Any provision of these terms later held to violate any law shall be deemed void and all remaining provisions shall continue in force. In such event, the Client and Consultant will work in good faith to replace an invalid provision with one that is valid with as close to the original meaning as possible.

**Survival** All provisions of these terms that allocate responsibility or liability between the Client and Consultant shall survive the completion or termination of services for the Project.

**Assignments** Neither party shall assign its rights, interests, or obligations under the Agreement without the express written consent of the other party.

**Governing Law** The terms of agreement shall be governed by the laws of the state where the services are performed provided that nothing contained herein shall be interpreted in such a manner as to render it unenforceable under the laws of the state in which the Project resides.

**Lien Rights** Consultant may file a lien against the Client's property in the event that the Client does not make payment within the time prescribed in this agreement. The Client agrees that services by Consultant are considered property improvements and the Client waives the right to any legal defense to the contrary.

**Collection Costs** In the event that legal action is necessary to enforce the payment provisions of this Agreement if Client fails to make payment within sixty (60) days of the invoice date, Consultant shall be entitled to collect from the Client any judgment or settlement sums due, reasonable attorneys' fees, court costs, and expenses incurred by Consultant in connection therewith and, in addition, the reasonable value of Consultant's time and expenses spent in connection with such collection action, computed at Consultant's prevailing fee schedule and expense policies.

**Equal Employment Opportunity** Consultant will comply with federal regulations pertaining to Equal Employment Opportunity. Consultant is in compliance with applicable local, state, and federal regulations concerning minority hiring. It is Consultant's policy to ensure that applicants and employees are treated equally without regard to race, creed, sex, color, religion, veteran status, ancestry, citizenship status, national origin, marital status, sexual orientation, or disability. Consultant expressly assures all employees, applicants for employment, and the community of its continuous commitment to equal opportunity and fair employment practices.

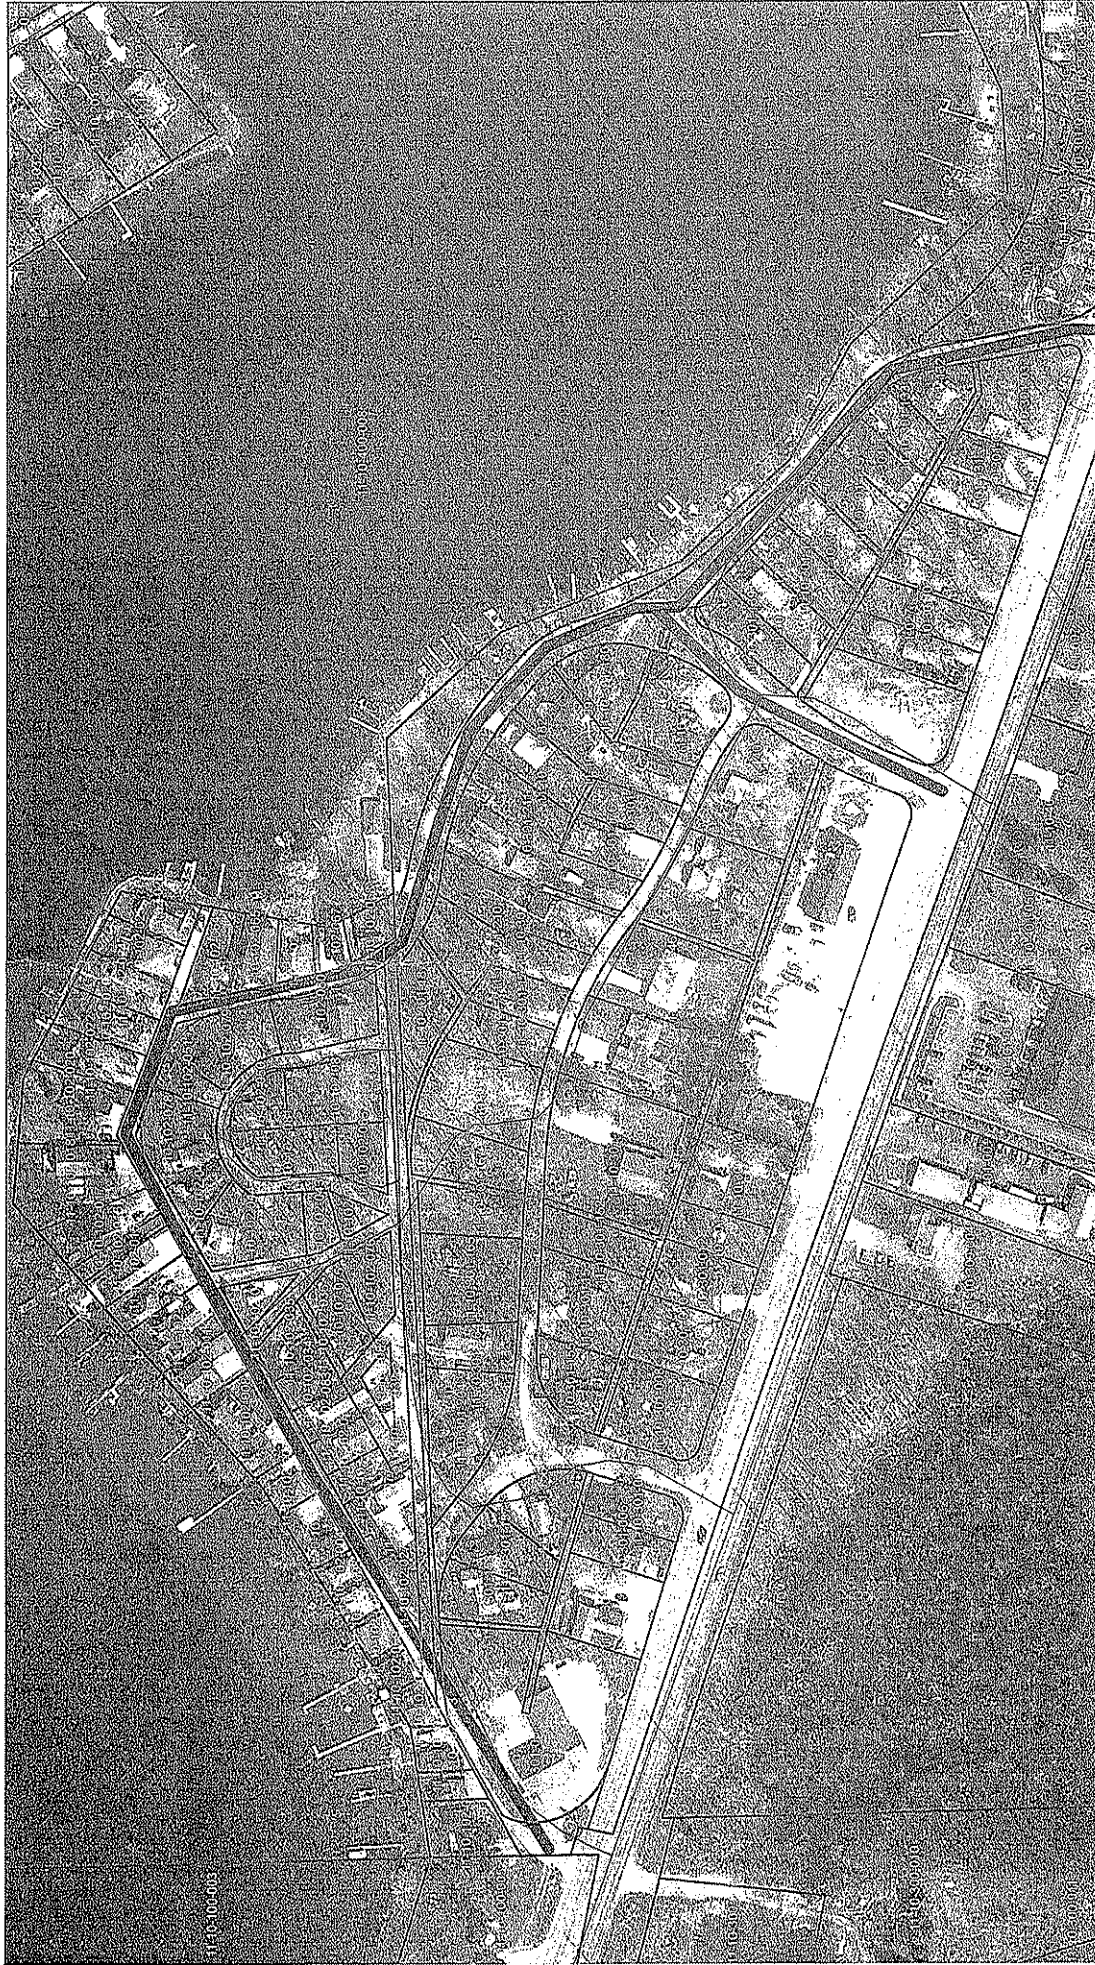

**Attorney Fees** Should there be any suit or action instituted to enforce any right granted in this contract, the substantially prevailing party shall be entitled to recover its costs, disbursements, and reasonable attorney fees from the other party. The party that is awarded a net recovery against the other party shall be deemed the substantially prevailing party unless such other party has previously made a bona fide offer of payment in settlement and the amount of recovery is the same or less than the amount offered in settlement. Reasonable attorney fees may be recovered regardless of the forum in which the dispute is heard, including an appeal.

**Third Party Beneficiaries** Nothing in this Agreement shall create a contractual relationship with or a cause of action in favor of a third party against either the Client or the Consultant. The Consultant's services under this Agreement are being performed solely for the Client's benefit, and no other entity shall have any claim against the Consultant because of this Agreement or the performance or nonperformance of services hereunder. The Client agrees to include a provision in all contracts with contractors and other entities involved in this project to carry out the intent of this paragraph.

**Captions** The captions herein are for convenience only and are not to be construed as part of this Agreement, nor shall the same be construed as defining or limiting in any way the scope or intent of the provisions hereof.

Nov. 17, 2009

To: Residents of Wildwood Drive

From: Polly Skolarus, Township Clerk

Subject: Petitions for paving of Wildwood

Please be advised that Genoa Charter Township will hold a public hearing on Dec. 7, 2009 at 6:30 p.m. at the Township Hall concerning the paving of Wildwood. The township has received requests from 27 residents asking to rescind their signatures from the petition previously submitted to the township. Please know that under Michigan law signatures cannot be legally removed from any petition. The Township Board would welcome your comment at this public hearing or you may do it in writing at the address below. Your comments would allow our seven member board to make a decision that would be beneficial to all Wildwood residents. It will be a final determination of the township board as to whether or not to proceed with the paving of Wildwood.

*Note: With the request from 27 homeowners to have their names removed from the petition it appears that there may no longer be enough support to go forward with this project.*

Please send your letters of objection or e-mails to:

Michael Archinal, Manager  
Genoa Charter Township  
2911 Dorr Road,  
Brighton, Michigan 48116

Dear Mike,

Per our conversation, my wife and I wish to rescind/revoke our request for the Wildwood Dr. paving project. My wife Eleanor S. Evarian and I (Mark P. Evarian) signed a petition regarding the paving of Wildwood Dr. Now that we have the facts supplied by the Township, we no longer wish to support the paving project.

We signed the petition twice each as we own two parcels of property on Wildwood Dr.

#4711-10-102-002 (5251 Wildwood Dr.)

#4711-10-102-027 (Vacant property)

Thank you and the Board for your consideration and understanding in this matter. I do not believe my wife or I will be able to attend the meeting, however should you require anything else from us, please feel free to contact us.

Sincerely,

Mark P. Evarian    Eleanor S. Evarian

SUBJECT: REQUEST TO **WITHDRAW MY SIGNATURE** FROM THE PETITION FOR  
ROAD IMPROVEMENT  
For Wildwood & Eckles Roads, Genoa Charter Township, Livingston County, MI

I received your letter dated September 23, 2009 with regard to the Wildwood project and have major concerns over it. Hence, this letter is to state that while I did sign a petition for Road Improvement, I was told that my signature did **NOT** mean I was consenting to any tax assessment. I was specifically told that signing the petition meant I was only agreeing to have the road assessed, not paved or asphalted. Wildwood is definitely not a good candidate for this because cars already go faster than the 10 mph posted speed limit and there are numerous walkers, and children that ride their bikes on the road. To pave or asphalt would definitely cause numerous accidents and problems. I also have property on the lake side that is somewhat low, and with the paving, the water that now soaks into the ground would flood our property. To add to this, I have property on both sides of Wildwood (one is only good for parking 2 cars), and this would be a double assessment as the township has already done this to me with the drainage assessment.

With this letter, **I am requesting my signature to be withdrawn** from the petition, and am voicing to the township that I am definitely opposed to this type of improvement.

I am **NOT** in favor of the special assessment district tax for Road Improvement. My signature below is my immediate request to have my name **REMOVED** from the original petition.

Thank you.

SUBJECT: REQUEST TO WITHDRAW MY SIGNATURE FROM THE PETITION FOR  
ROAD IMPROVEMENT  
For Wildwood & Eckles Roads, Genoa Charter Township, Livingston County, MI

This letter is to state that while I did sign a petition for Road Improvement, I was told that my signature did NOT mean I was consenting to any tax assessment. I was specifically told that signing the petition meant I was only agreeing to:

*that, I Robert J. Pasciolla, was under the impression that the Road improvement petition was to be put on a ballot for the next or upcoming election. I do not want to be in compliance of the cost factor and my expectation of speedy driving. The housing is very close to the road and each other reducing drivers reaction time, to stop in time, which may result in death or injury. Vehicles already exceed the speed limit. A paved road will only encourage speedy drivers TO GO FASTER!!*

I am NOT in favor of the special assessment district tax for Road Improvement. My signature below is my immediate request to have my name REMOVED from the original petition.

Greetings Paulette,

This letter is in regards to the paving project of Wildwood Road. I am one of 27 others who reluctantly signed the petition and feel I have been misled. The words that threw me off were assessment and evaluation. To me, that meant a determination of cost would be made by survey results to evaluate the assessment of cost approval. By gaining a required number of signatures would put it on a ballot for an upcoming election to vote for or against it.

Paulette as you know there has been many lay-offs. I signed this petition May 31st and was laid off June 19<sup>th</sup> after 32 years with a company and still currently unemployed. But there are many people like me in the same boat who have to make a drastic life changing style and fear of losing their homes. I am sharing this information with you because it is going to be very hard for us to start all over again. ***We definitely do not need this added cost in our lives with this road project!!***

Another major concern is speedy driving. The speed limit is 15 mph which was implemented for good reason. The housing is right next to the road. There are many blind spots and hidden turns which could result in a fatal or serious injury. ***Having a paved road will only enhance or encourage already neglect drivers too drive faster; reducing their reaction time!!*** There are many children, seniors, and people who walk their pets. I am requesting this to be a written record of a major safety concern of the whole community that is affected by this road project. Thank-You for your time in regarding this matter. Paulette I am also going to send you a hand-written copy of this letter.

Best Wishes,

**Bob Pasciolla**

This letter is to state that, while I did sign a petition for Road Improvement, I was told that my signature did **NOT** mean I was consenting to any tax assessment. I was specifically told that signing the petition meant I was only agreeing to:

*When this petition was brought around, this was the first time and only time we were contacted with regard to paving the road. I did not realize this was a final approval to proceed with the project.*

*My understanding this was a feasibility study to identify what, when, etc would be done (water drains, change in property lines, sewer drains). I believe there are several issues that needed to be addressed before final approval signatures.*

*In addition since the petition was signed on May 30 and the project is in question, my financial position has changed drastically for the worst and this is not a good time to take on any additional expense.*

I am **NOT** in favor of the special assessment district tax for Road Improvement. My signature below is my immediate request to have my name **REMOVED** from the original petition.

To the Board of the Charter Township of Genoa  
Attn: Polly Skolarus, Township Clerk  
2911 Dorr Road  
Brighton, Michigan 48116

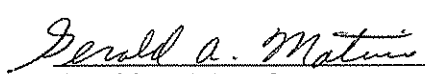

SUBJECT: Petition for Road Improvement  
For Wildwood & Eckles Roads, Genoa Charter Township, Livingston  
County, Michigan

Pursuant to the Township Board Meeting of September 21, 2009, we are writing this letter to reiterate that when we signed the Petition for Road Improvement we were under the impression that we were requesting a feasibility study concerning the possibility of getting our road paved. We did not know that we were consenting to any tax assessment until the facts were known regarding drainage problems in addition to the paving.

At this meeting we also noticed that the side roads leading to Wildwood were not being paved. These side roads are hills and our concern is that during the rains the runoff of water and mud would create more problems for those of us downhill from this runoff.

We are not in favor of the special assessment district tax for road improvement without further knowledge of the drainage coverage and full cost of the project. We hope that the survey work that includes all drainage issues will be completed by the December 7, 2009, Public Hearing

Very truly yours,

  
Gerald A. Matevia

PETITION FOR ROAD IMPROVEMENT  
For Wildwood & Eckles Roads, Genoa Charter Township, Livingston County, MI

We, the undersigned, pursuant to the provisions of Public Act 188, as amended, do hereby petition the Genoa Charter Township Board to establish a special assessment district for the purpose of road improvement for the undersigned residents of Wildwood & Eckles Roads in Genoa Charter Township, Fifty-one (51) property owners of Wildwood & Eckles Roads who will benefit, request this improvement by petitioning the Genoa Charter Township Board. We, the undersigned, do consent to the allocation of cost by special assessment to each benefited property for the improvement to be assessed the special assessment district to be formed. Further, it is understood that the estimated cost for the district is \$372,000.00 (\$57,000.00 Township equally by all benefited properties (approximately \$1,105.00 per parcel annually). Further, it is understood that the benefited property owners will be responsible for the establishment of this special assessment district. The costs thereof, including expenses connected with publications, permits and legal costs will be paid from the land within said proposed district and will be divided into equal annual installments in accordance with MCL 41.721 as amended.

Re; Responding to letter dated September 23, 2009 [ Paving of Wildwood Dr.]

Mr. Archinal, I will not be able to attend the scheduled meeting December 7, 2009. I would like to express my opinion regarding the paving of Wildwood Dr. being a resident at my address for five years. The road is despicable, somedays almost impassable, dangerous, muddy and disgusting. Its embarrassing to have company over because they have to use this road. My frontage is probably the least of any resident but I'm willing to pay my share.

Please take a ride after it rains to see for yourself this disaster of a road. No resident should have to put up with these conditions, I even had to replace two tires because of hitting pot holes. I have included pictures for you to see for yourself what we put up with after it rains. I make a weekly call to the road commission to have it graded and usually after a month they come out make one pass and disappear. One week later it back to normal pot holes mud, etc.

Please take this letter as a BIG YES in having the paving done, and the ones who don't have them take a walk because apparently there blind to it's condition.

Thank You,

Fred Styka, a concerned resident

**Subject:** Wildwood paving project

Michael Archinal, Manager  
Genoa Charter Township  
2911 Dorr Road,  
Brighton, Michigan 48116

Dear Mike,

Per our conversation, my wife and I wish to rescind/revoke our request for the Wildwood Dr. paving project. My wife Eleanor S. Evarian and I (Mark P. Evarian) signed a petition regarding the paving of Wildwood Dr. Now that we have the facts supplied by the Township, we no longer wish to support the paving project.

We signed the petition twice each as we own two parcels of property on Wildwood Dr.

#4711-10-102-002 (5251 Wildwood Dr.)

#4711-10-102-027 (Vacant property)

Thank you and the Board for your consideration and understanding in this matter. I do not believe my wife or I will be able to attend the meeting, however should you require anything else from us, please feel free to contact us.

Sincerely,

Mark P. Evarian    Eleanor S. Evarian

For Wildwood & Eckles Roads, Genoa Charter Township, Livingston County, MI

This letter is to state that I am OPPOSED to the Petition recently circulated to Wildwood residents that establishes a special district tax assessment for the Road Improvement of Wildwood and Eckles roads. I am opposed to this Petition for the following reason(s):

Even though our house has a Wildwood address, our drive is off Dixon. We have no access to our home from Wildwood. We never have reason to even drive on Wildwood, much the same of all the homes on the bluff. This assessment should be to homes that logically use Wildwood to access their homes. If you want me to pay an assessment for paving a road then pave the one I use - Dixon!

My signature below represents I am OPPOSED to the Petition establishing a special district tax assessment for Road Improvement of Wildwood and Eckles Roads.

RECEIVED

To Whom It May Concern:

Regarding the subject of paving Wildwood, I am submitting this letter for the December 7, 2009 public hearing. We will not be in town to attend the meeting. As per our last letter regarding this issue, MATEM, LLC the owner of 5278 Wildwood is against the paving project of Wildwood. We access our home strictly off of Westwood and Dixon and never have reason to even drive on Wildwood. We feel that paving that street when the streets we use are dirt has no value to our home and is not an asset for us in any way. The project would only be a hardship for us and that is the last thing we need is another expense.

Sincerely,

Mary Mitchell  
Member

FROM: Jerry Best

RE: "Backdoor politics"

PLEASE consider this as TWO (2) votes against the proposed project to blacktop Wildwood Drive.

Why am I notified every time a neighbor wants to add on or build a storage shed (which costs me nothing), yet when a major project that costs plenty comes up I am not notified??!!

How can we change our local laws to prevent this from happening again? I don't want to know every time someone builds on their own property. I want be notified when there are significant events like my road being blacktopped so we can discuss factors like runoff into the lake, higher speeds and safety concerns and of course, expense.

We are living in a state the ranks 50<sup>th</sup> in many economic indicators. One tenth of our population is unemployed and many of our houses are vacant or for sale. I own two houses and don't need to pay \$10,000 to pave the road. I need to figure out how to keep my property until the economy turns around. I am personally aware of at least 4 people in the neighborhood that are facing foreclosure. To saddle everyone with this kind of UNNECESSARY EXPENSE WOULD BE IDIOTIC. What kind of well-meaning people would want to do this to their neighbors?

I feel really let down by my local politics that there wasn't any kind of notification system in place for something of this magnitude. The people that signed the petition were duped into thinking the petition was simply to explore expenses and project parameters. It's a shame there isn't a meaningful system in place to keep this kind of thing from happening.

SUBJECT: REQUEST TO **WITHDRAW MY SIGNATURE** FROM THE PETITION FOR  
ROAD IMPROVEMENT  
For Wildwood & Eckles Roads, Genoa Charter Township, Livingston County, MI

This letter is to state that, while I did sign a petition for Road Improvement, I was told that my signature did **NOT** mean I was consenting to any tax assessment. I was specifically told that signing the petition meant I was only agreeing to:

*to find out about what the cost  
would be - not to go ahead and  
start the procedures.*

I am **NOT** in favor of the special assessment district tax for Road Improvement. My signature below is my immediate request to have my name **REMOVED** from the original petition.

SUBJECT: TO STATE MY OPPOSITION TO THE PETITION FOR ROAD IMPROVEMENT  
For Wildwood & Eckles Roads, Genoa Charter Township, Livingston County, MI

This letter is to state that I am OPPOSED to the Petition recently circulated to Wildwood residents that establishes a special district tax assessment for the Road Improvement of Wildwood and Eckles roads. I am opposed to this Petition for the following reason(s):

① THE COST OF THE ASSESSMENT TO MY PROPERTY IS EXCESSIVE.

② IT APPEARS ONLY WILDWOOD AND ECKLES ROAD WILL BE

PAVED. DICKSON AND CIRCLE ARE CLOSER TO MY HOME THAN

WILDWOOD. IT WOULD BE FOOLISH TO ONLY PAVE WILDWOOD AND PAY FOR IT.

③ TO PAY FOR WILDWOOD, DICKSON, AND CIRCLE TO BE PAVED COULD

COST OVER \$18,000 FOR MY PARCEL OF LAND. THIS WOULD BE AN OPPRESSIVE AMOUNT.

④ PAVING OF WILDWOOD WOULD MAKE FUTURE INSTALLATION OF CITY WATER DIFFICULT

My signature below represents I am OPPOSED to the Petition establishing a special district tax assessment for Road Improvement of Wildwood and Eckles Roads.

FROM: Jerry Best

RE: "Backdoor politics"

PLEASE consider this as TWO (2) votes against the proposed project to blacktop Wildwood Drive.

Why am I notified every time a neighbor wants to add on or build a storage shed (which costs me nothing), yet when a major project that costs plenty comes up I am not notified??!!

How can we change our local laws to prevent this from happening again? I don't want to know every time someone builds on their own property. I want be notified when there are significant events like my road being blacktopped so we can discuss factors like runoff into the lake, higher speeds and safety concerns and of course, expense.

We are living in a state the ranks 50<sup>th</sup> in many economic indicators. One tenth of our population is unemployed and many of our houses are vacant or for sale. I own two houses and don't need to pay \$10,000 to pave the road. I need to figure out how to keep my property until the economy turns around. I am personally aware of at least 4 people in the neighborhood that are facing foreclosure. To saddle everyone with this kind of UNNECESSARY EXPENSE WOULD BE IDIOTIC. What kind of well-meaning people would want to do this to their neighbors?

I feel really let down by my local politics that there wasn't any kind of notification system in place for something of this magnitude. The people that signed the petition were duped into thinking the petition was simply to explore expenses and project parameters. It's a shame there isn't a meaningful system in place to keep this kind of thing from happening.

Jerry Best

## MEMORANDUM

TO: Township Board

FROM: Michael Archinal 

DATE: 12/4/09

RE: Park Pavillion Building

As discussed at the 11/30/09 Joint Meeting we have been working on a proposal for the construction of a pavilion with restroom facilities adjacent to the Township athletic fields. Our property now receives considerable use. With the completion of our first season of activities on the fields it has become apparent that these structures are necessary.

A stairway is proposed that will direct parents dropping off their children to a safer location. Currently drop-offs for the north field utilize the employee parking at the rear of the building. With no easy turn-around and players milling about the parking lot an unsafe condition exists. The steps will provide a connection to the path system and will encourage drop-offs near the north end of the eastern most bank of parking. This will allow drivers to circle adjacent to the drop box and flag pole and proceed back towards Dorr Road.

Over the summer several soccer camps were held. With the lack of facilities the campers made extensive use of the Township Hall which made the conduct of business difficult. Placement of restrooms between the fields will alleviate this issue. The pavilion also provides a covered area for picnic tables and relief from the elements. Storage areas for nets and flags are also provided.

A memorial fund has been established for a Township resident who was an avid soccer supporter. An effort was made to include a soccer related element to the project. The design incorporates a practice wall with synthetic turf at the east side of the building.

The plan includes various amenities which may be added as a future phase and which we can discuss Monday night. At this time we recommend the following:

Building Total	\$183,597.50
Concrete Stairs	8,400.00
Artificial Turf	10,125.50
Subtotal	202,123.00
Less Memorial Fund (approx.)	7,000.00
<b>Total</b>	<b>\$195,123.00</b>

Everything the Township Board has constructed on this site has been first class whether it be the Hall itself, the Firehall or even the garage. Porta-Johns are not in keeping with the high standards you have established. I have a long history working with both Lindhout Associates and B.D. Donovan Builders. I am confident they will provide a quality product we will all be proud of. A standard design/build contract will be forthcoming.

There is a long lead time (6 to 8 weeks) for the structural laminated beams as they are custom made for each project. We only have one meeting in December and I don't want to wait until January to place our order. On Monday night, at a minimum, I would like to get conceptual approval on the building size so the beams can be ordered.

Please consider the following action:

**Moved by \_\_\_\_\_, supported by \_\_\_\_\_, to approve the park pavilion building proposal as presented.**

December 2, 2009

Genoa Charter Township  
2911 Dorr Road  
Brighton, MI 48116

Attn: Michael Archinal, Manager

Re: Park Pavilion Building

Dear Mr. Archinal,

B.D. Donovan Builders and Lindhout Associates Architects are pleased to present this design-build proposal for the Pavilion Building adjacent to the Township Hall to support the recreation functions currently taking place.

Our intent is to provide the Township with a quality project that matches the aesthetic and quality standards set forth by the Township Hall and Fire Hall that exist on the site. The design of the building evolved into several other site improvements which we have included in the design documents. We have included several of the improvements as alternate prices so the you and the Board can consider each element separately.

We do not consider the design process 100% complete. We welcome any comments or suggestions from you and the Board that would enhance the project or make it more cost effective. Please do not hesitate to bring fresh ideas to the design table and we will provide you with revised drawings and costs as appropriate.

Our Proposal is submitted in the following format:

- ❖ Introduction Letter
- ❖ Building and Site Design Images
- ❖ Cost Summary
- ❖ Schedule

Please let us know if there is any other information necessary. Thank you for this opportunity to work with Genoa Charter Township.

Respectfully Submitted

## BUILDING & SITE DESIGN

Per the direction given by the Township, we are proposing a laminated wood arched roof with a face brick exterior wall for the building. Substantial savings were realized with the pre-fabrication process used in the laminated arches and wood roof decking. Shingles and brick would match that used on the adjacent Township Hall. The attached technical drawings depict the structure exactly as proposed. The general appearance of the structure would be similar to these images:

The proposed building includes 2 barrier free toilet rooms, a small janitor / electrical room, and 2 storage rooms for the athletic field users. The covered area will hold 4 large picnic tables. The concrete floor of the pavilion extends beyond the roofline to keep erosion minimized and extend the gathering space on to the site. A unique feature of the design is the practice wall on the east end of the building. This wall serves as a practice wall for the soccer players waiting for their games. Synthetic turf is proposed in this area to allow for years of heavy use.

The site plan shown on the following pages depicts the location and overall layout of the project. Important elements have been added to allow for maximum use of the site. They include:

- ❖ A small playground area
- ❖ A quiet picnic area with shade trees
- ❖ A soccer practice space
- ❖ A stair from the vehicle drop off area to the play fields

The playground equipment in this proposal is state of the art equipment meeting all national safety standards. It is constructed of low maintenance materials and should enjoy a long life span.

Item	ProGreen Artificial Grass
<p>Glacier - Edge, ELE500005</p> 	 
<p>Hopper, ELE400022</p> 	<p>CONCRETE PAD TO BE PROVIDED</p>  <p>CONCRETE PAD TO BE PROVIDED</p>
<p>Swings, 4 place w/ 2 - belt &amp; 2 - tot seats</p> 	

The concrete stair and metal handrail shown on the drawings is intended to offer a safe route up and down the hillside. Currently, players are being dropped off in the rear lot and have no good route up to the field area. The new route should encourage parents to drop off their children without having to enter the rear lot. It will also serve as an alternate route for those events that fill the playfield parking lot and overflow parking at the Township Hall is used.

It is anticipated that benches can be added along the walking trail at locations determined by the Township based upon the budget and need. These have been proposed on a per bench cost. All benches and tables feature recycled materials.

PROPOSED COST

<b>SUB TOTAL BUILDING ONLY</b>	<b>\$183,597.50</b>
OPTIONAL COSTS	
Concrete Stairs	3400
Stair Railing	5000
Net Total Stair	\$ 8,400.00
Picnic Tables	3100
Concrete Pad	200
Net per Table on Site	\$ 3,300.00
Benches with Concrete Pad	\$ 2,100.00
Artificial Turf	\$ 10,125.50
Playground Equipment + Mulch	\$ 56,034.00
Electric Heaters (5)	\$ 8,926.50
Security Cameras	\$ TBD     ADT
<b>SUB TOTAL ALL OPTIONS</b>	<b>\$ 94,296.90</b>
<b>BUILDING + ALL OPTIONS</b>	<b>\$277,894.40</b>

## PROPOSED SCHEDULE

We expect the project to proceed per the direction of the Board. Our initial thoughts are as follows:

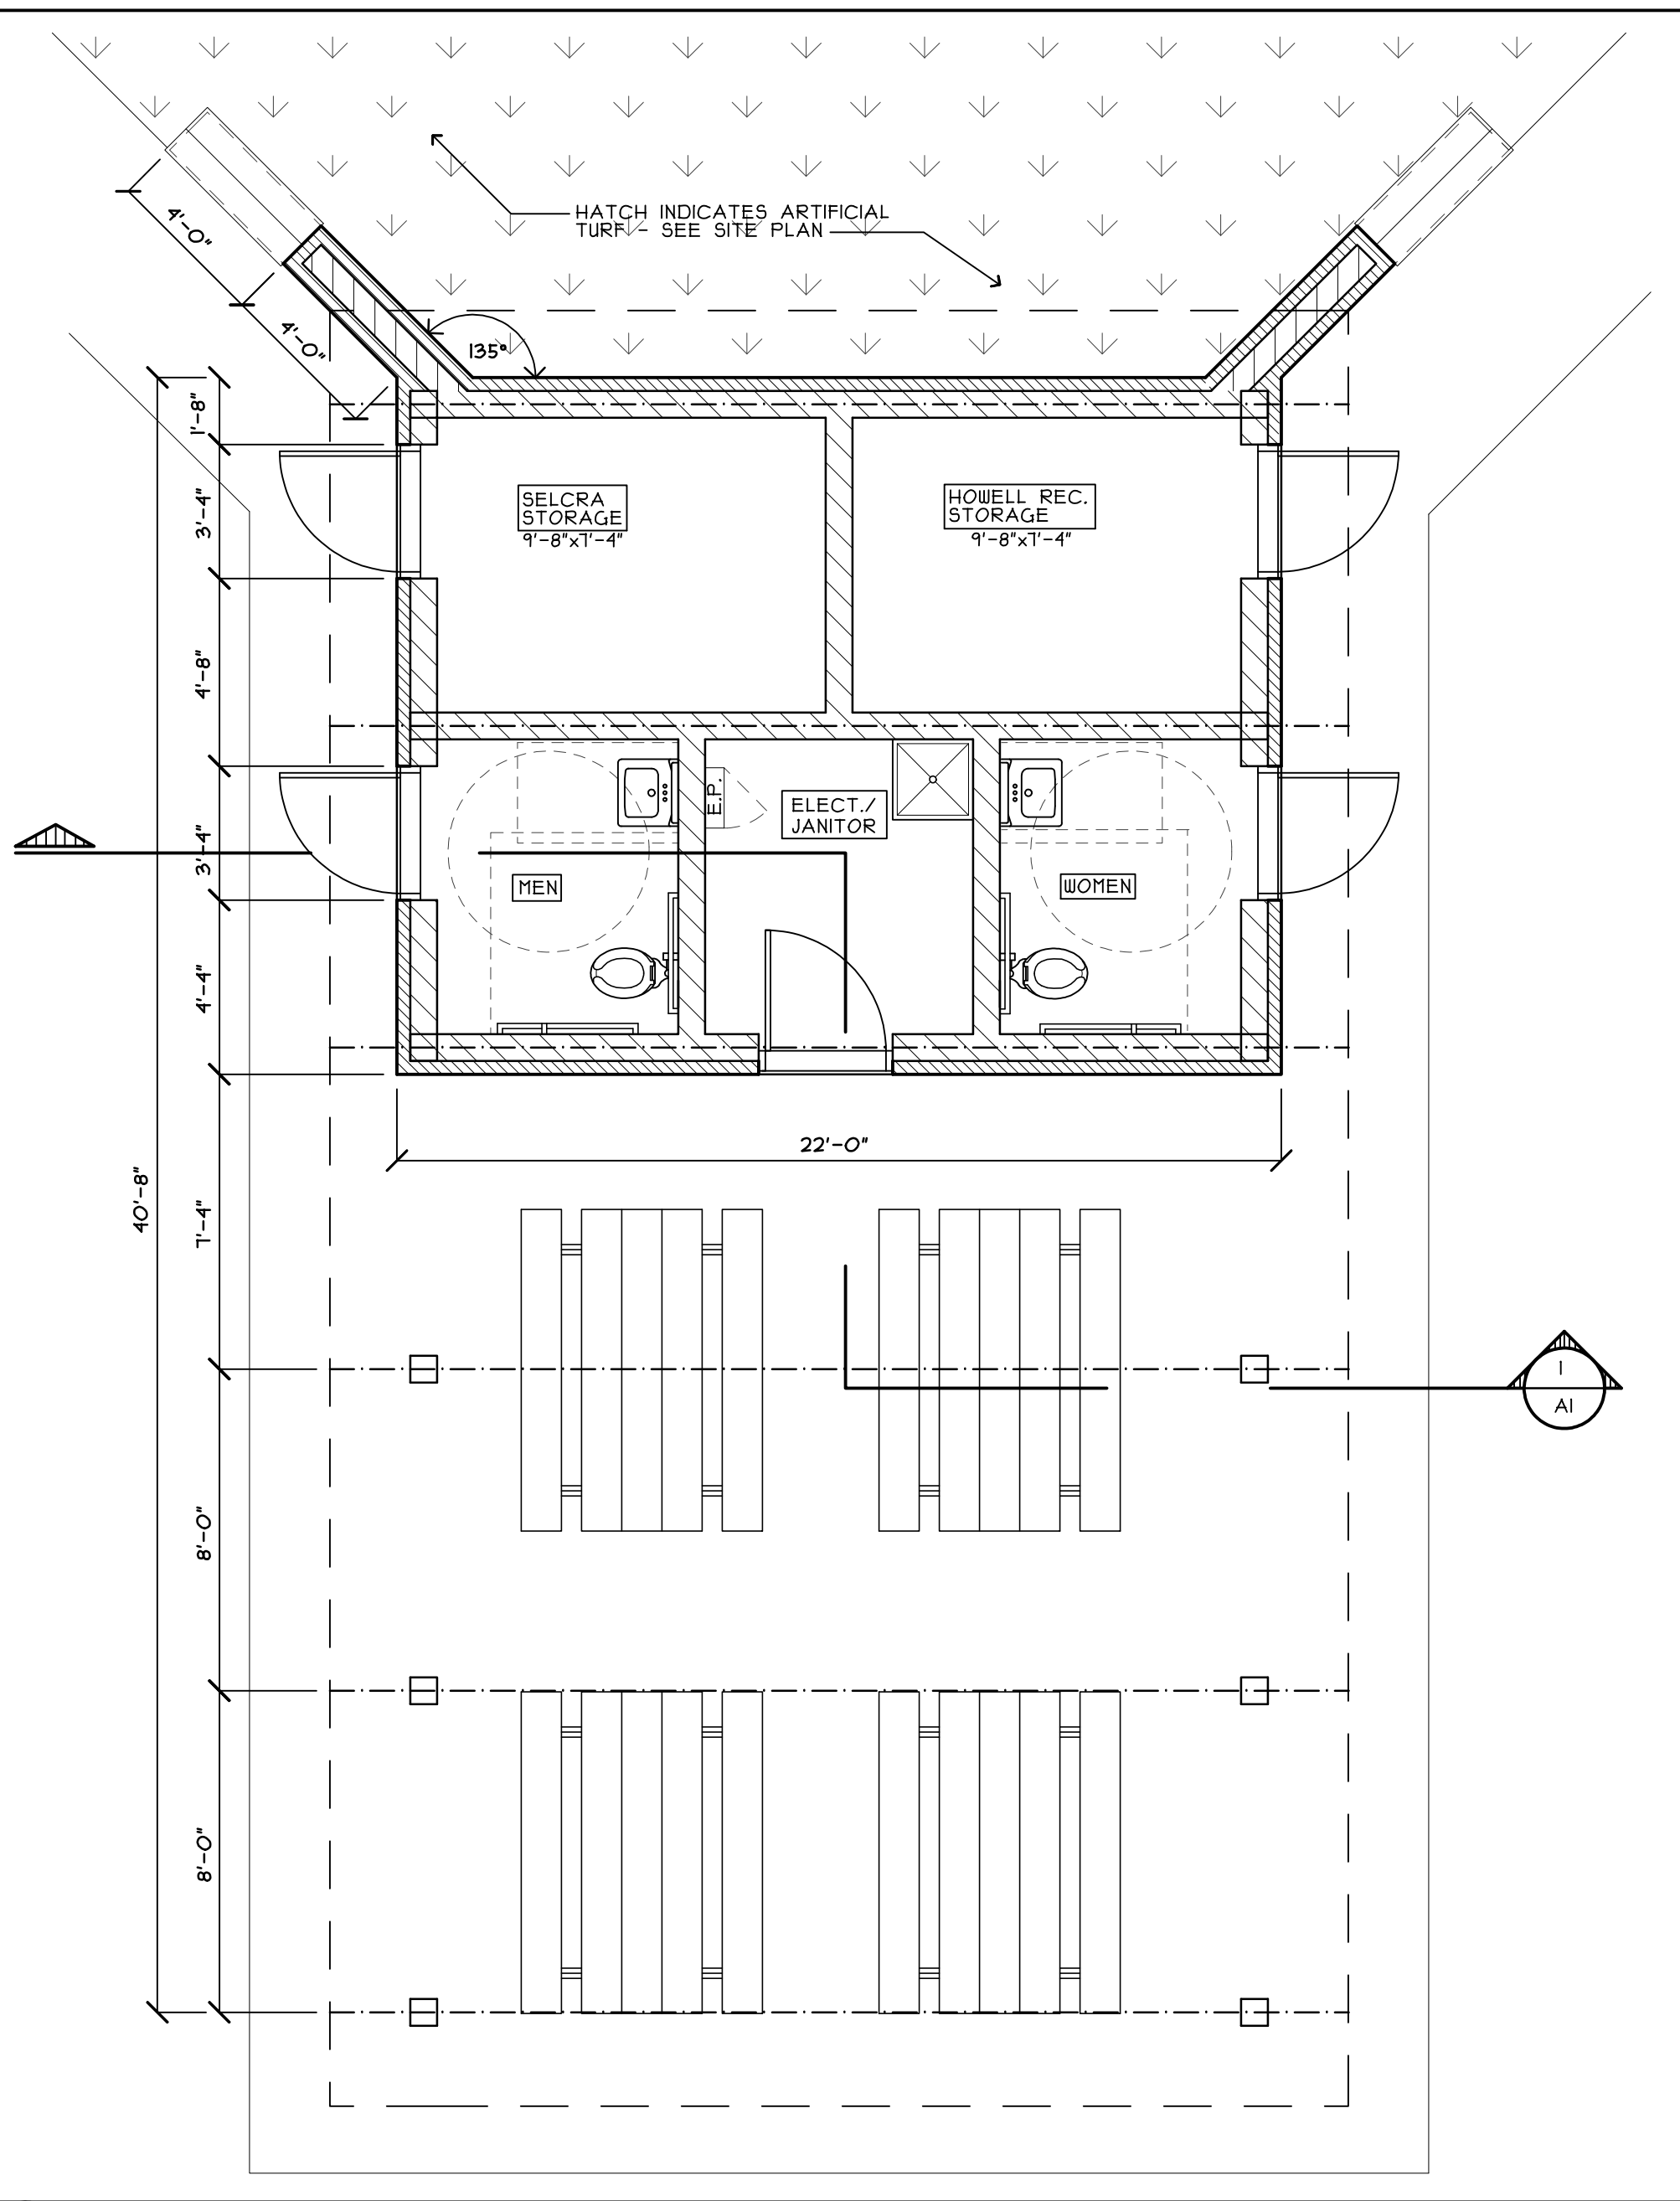

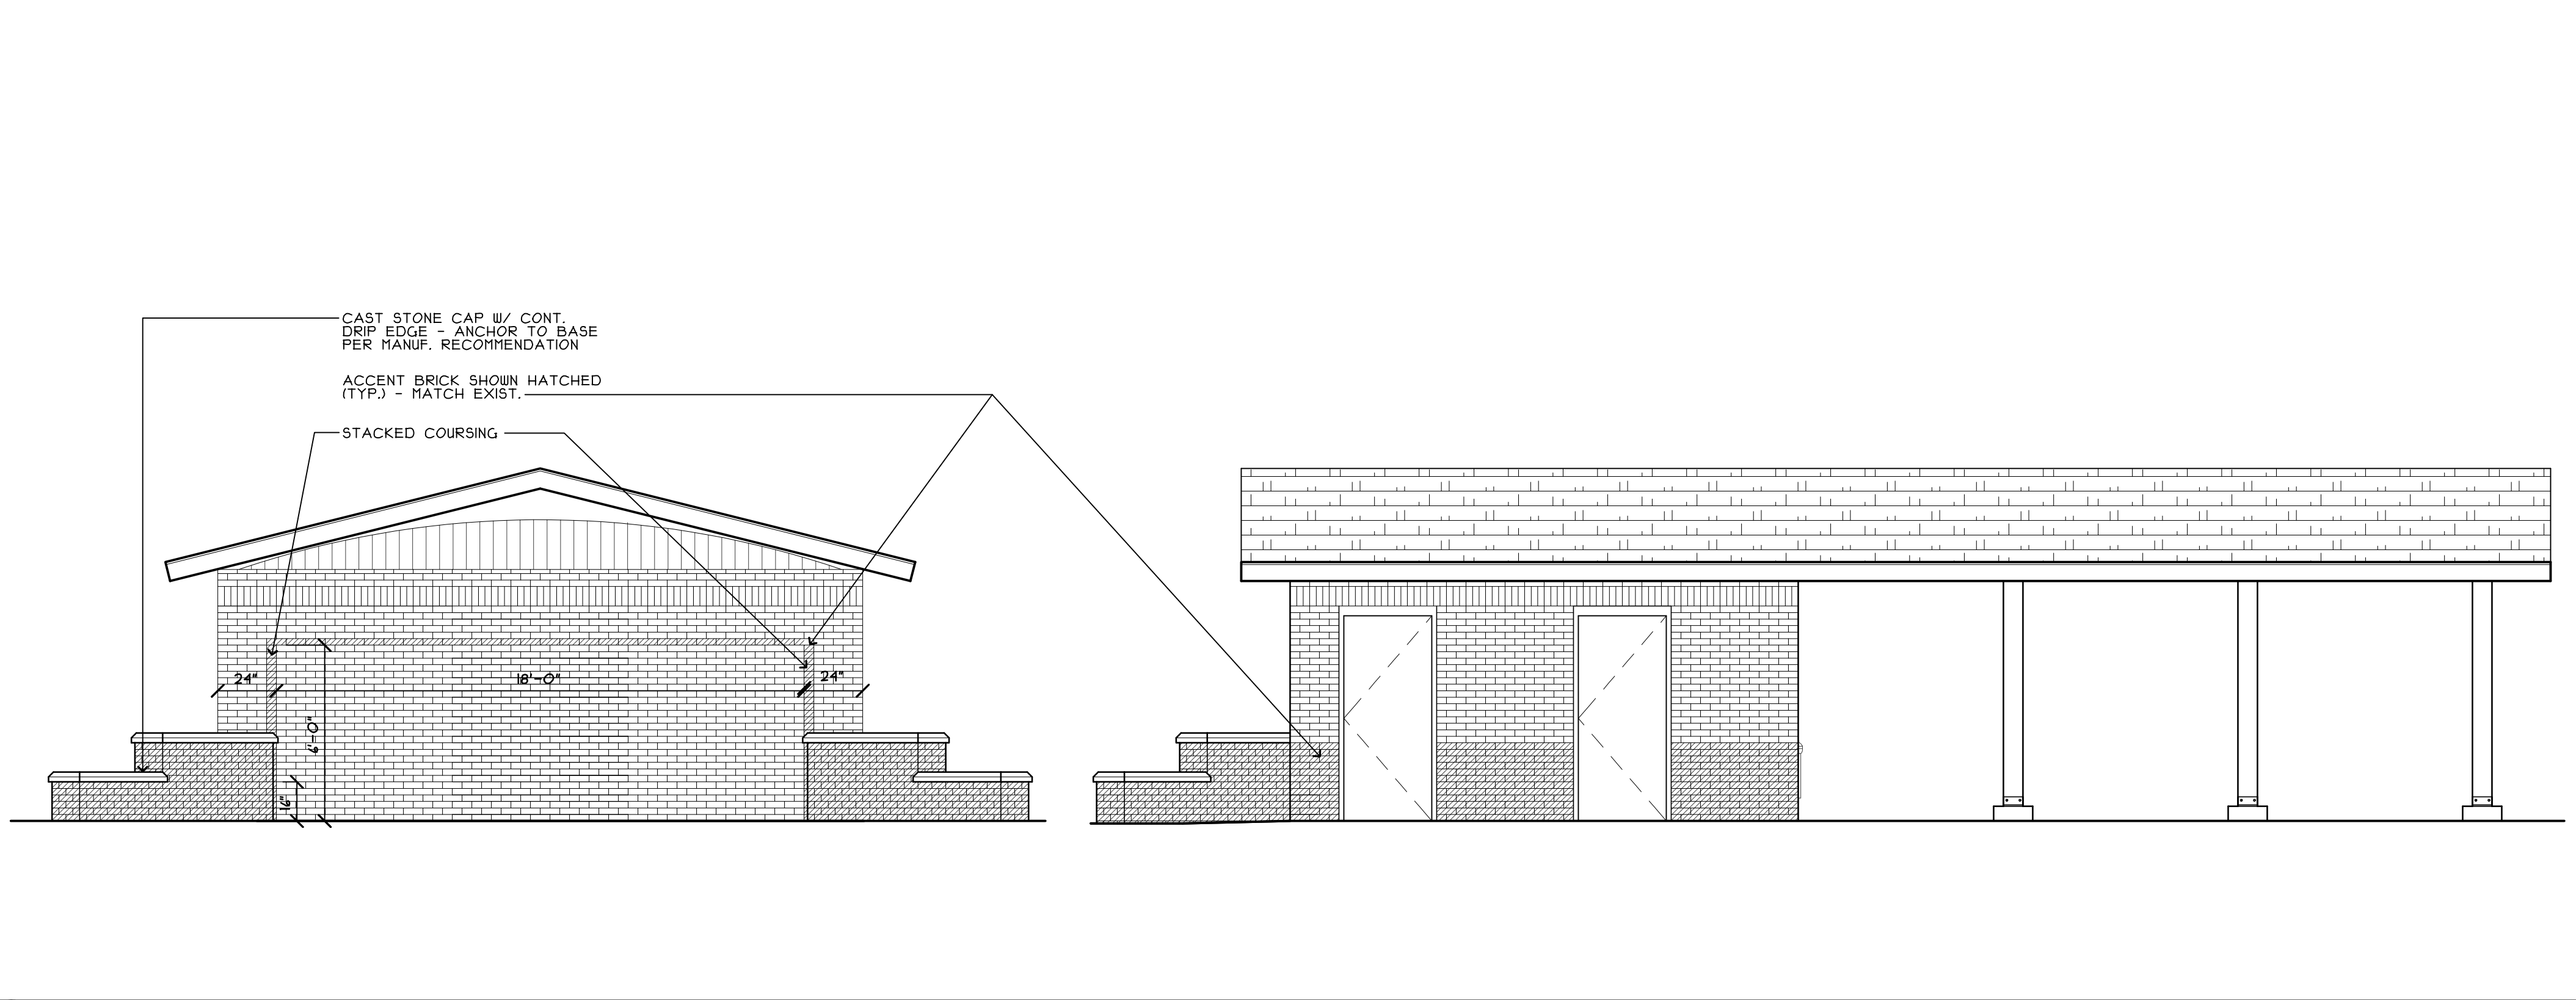

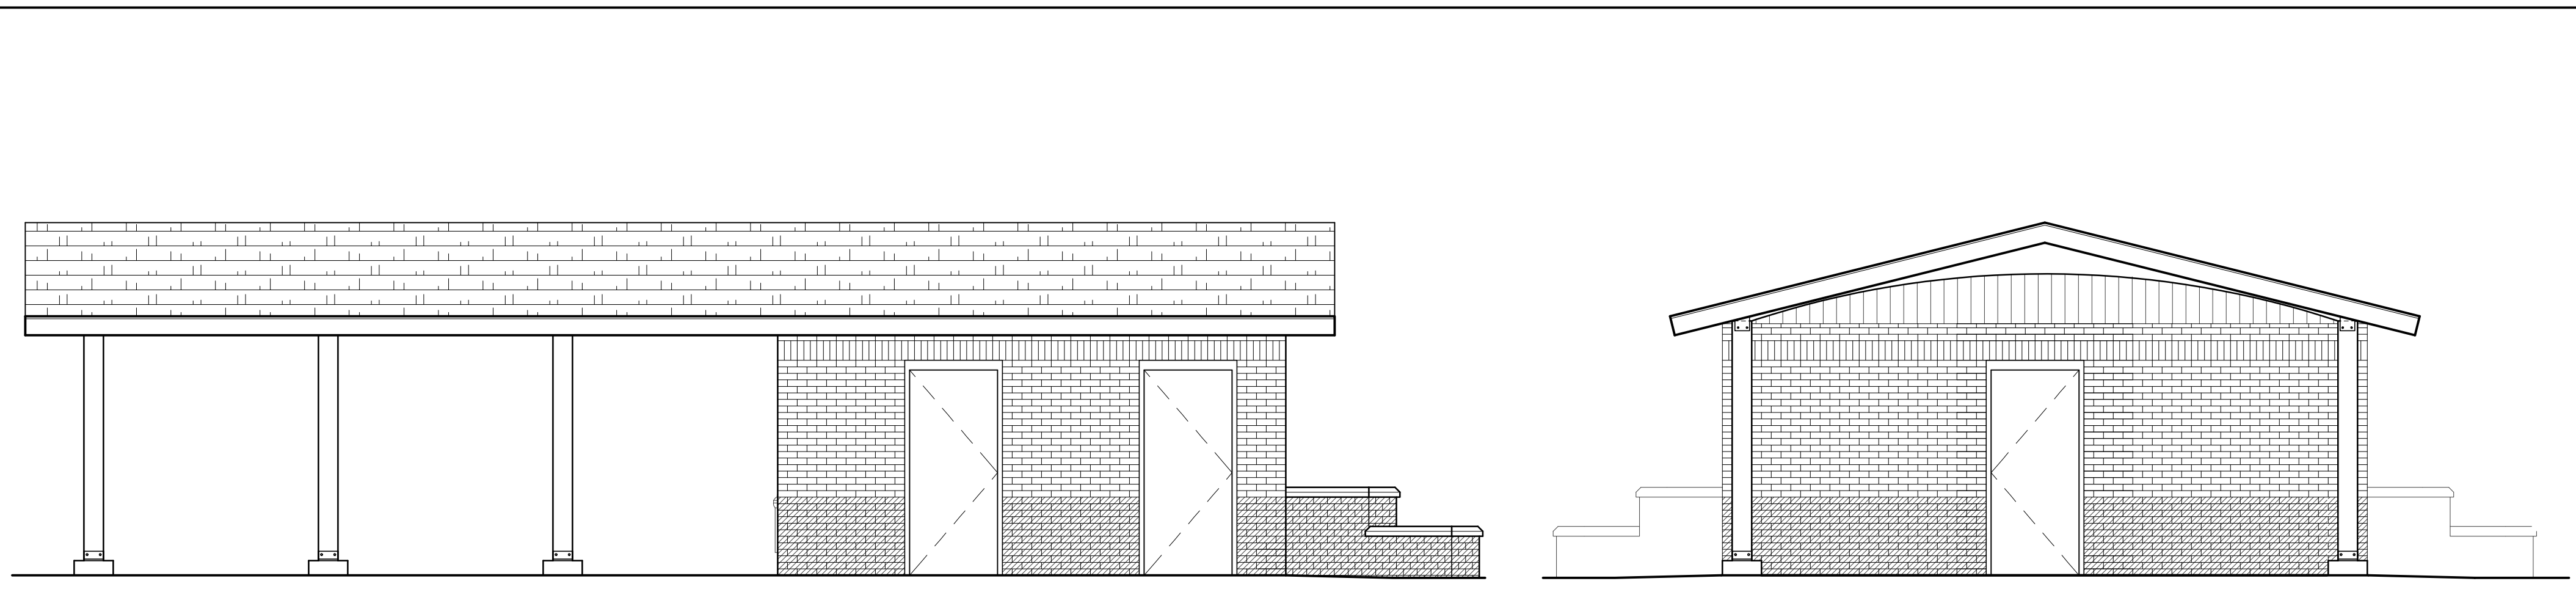

No.	Event / Activity	Start	Complete
1	Award Design-Build Contract		<b>December 7, 2009</b>
2	Complete Design Documents	December 8, 2009	December 22, 2009
3	Permitting	December 22, 2009	January 11, 2010
4	Underground, Foundations	January 12, 2010	January 31, 2010
5	Wood Framing	February 1, 2010	February 10, 2010
6	Roofing	February 11, 2010	February 13, 2010
7	Masonry	February 15, 2010	March 15, 2010
8	Rough Elec./Plumb./Vent	March 1, 2010	March 15, 2010
9	Finish Carpentry	March 15, 2010	March 31, 2010
10	Exterior / Interior Concrete Slabs	March 15, 2010	March 31, 2010
11	Finish Paint	April 5, 2010	April 9, 2010
12	Finish Elect./Plumb./Vent.	April 12, 2010	April 16, 2010
13	Landscape + Irrigation	April 1, 2010	April 30, 2010
14	Playground + Accessories	April 1, 2010	April 30, 2010
15	Exterior Stairs	April 1, 2010	April 30, 2010
16	<b>PROJECT COMPLETE</b>		<b>May 1, 2010</b>

Obviously, certain assumptions have been made for this schedule. As sub-contracts are let, and weather patterns develop, a more exact schedule will be developed. We are open to modifications deemed necessary by the Township.

## CLOSING

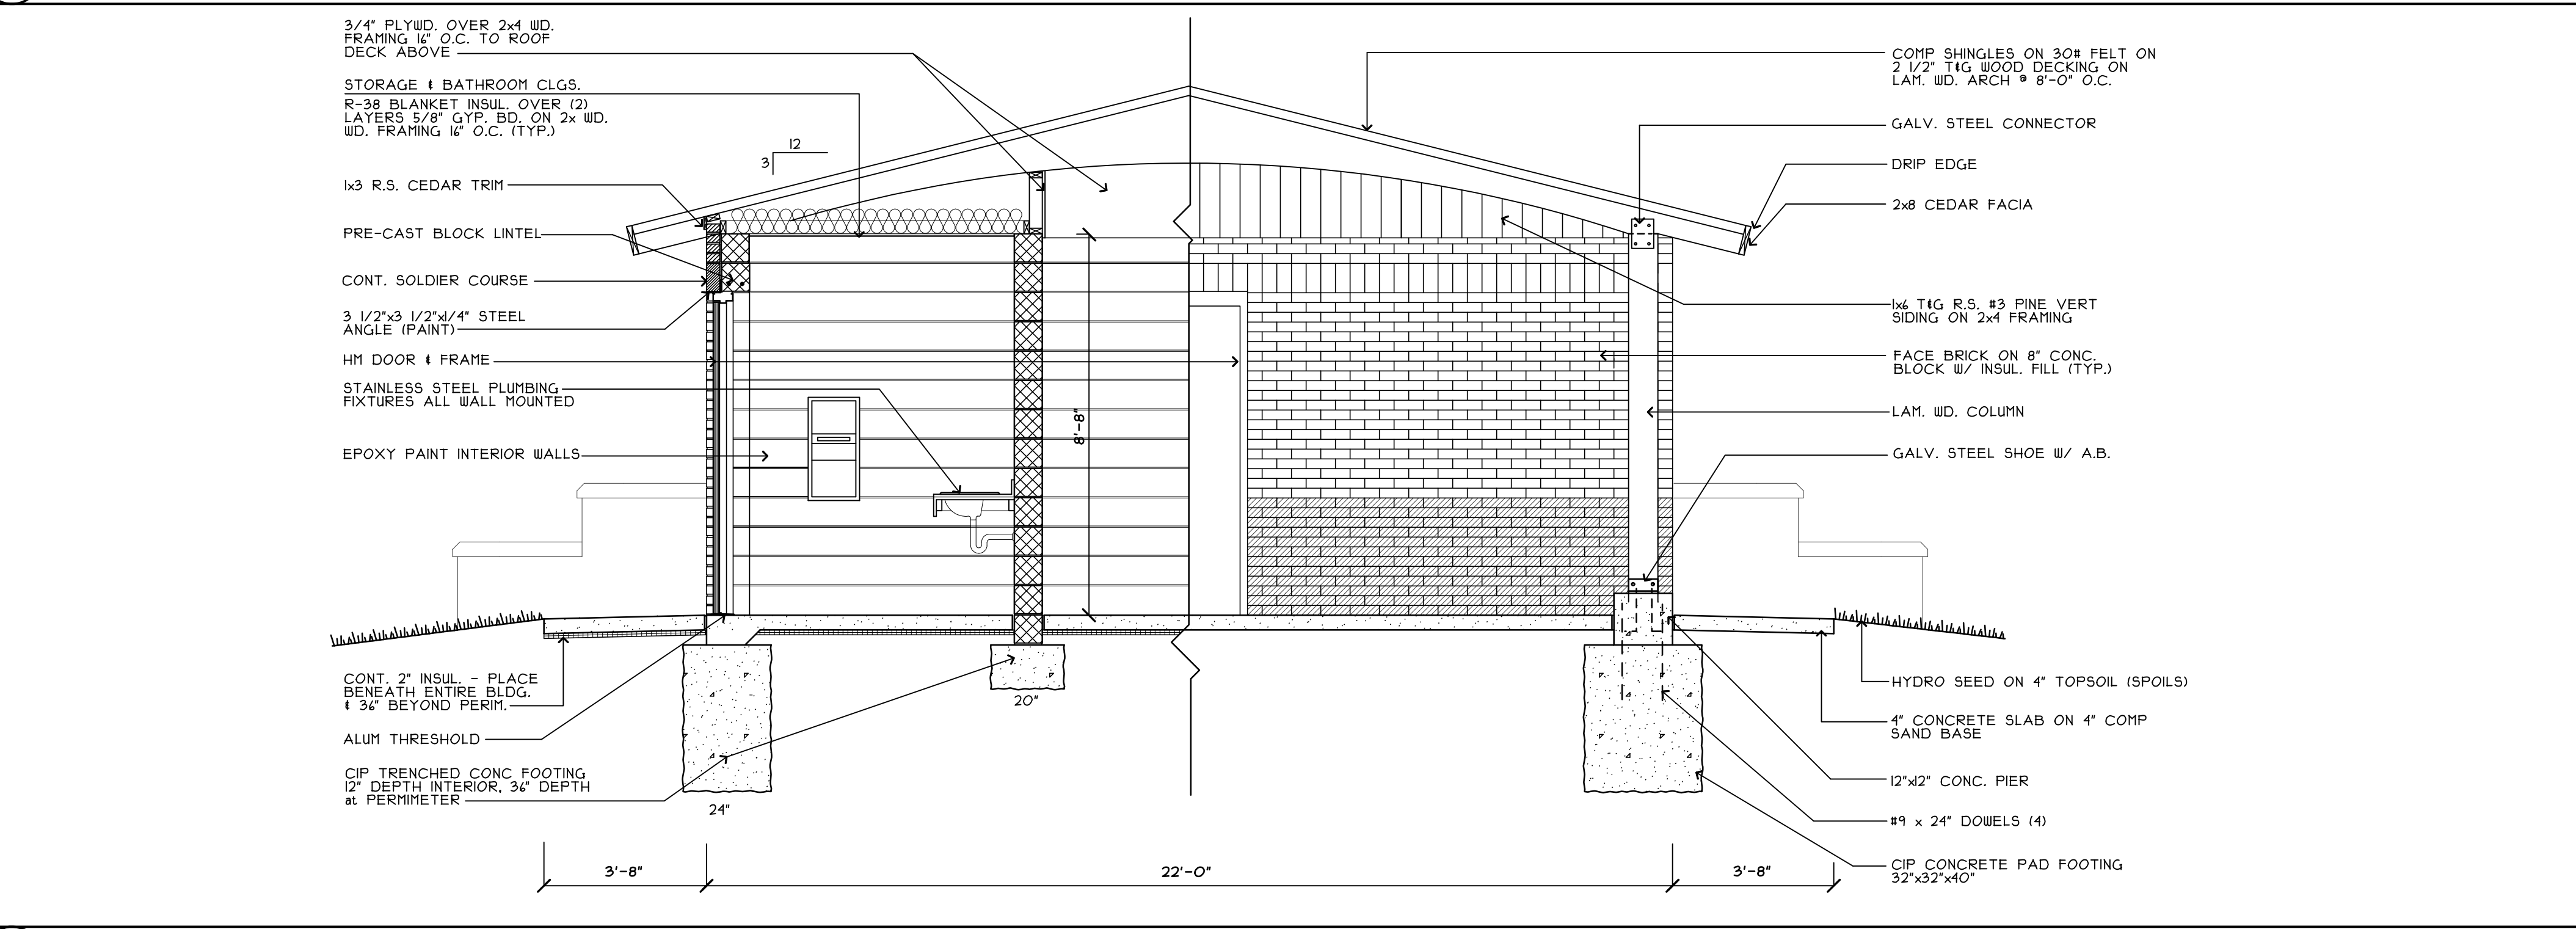

We are ready and willing to answer questions regarding this proposal, modify the design, or otherwise respond to the needs of the Township. Please do not hesitate to contact us at any time.

***MMRMA Claims Report***

*Michael Ellis*  
*Director of Claims*

---

**Sidewalks and the So-Called Two-Inch Rule**

Over the last several years, a staple of the Claim Department's open claims inventory has become the sidewalk slip and fall case. Each adjuster seems to always have several of these open at any given time. These are the type of cases where a good loss control program could have a major impact on reducing exposure.

Over the years, we have published several brochures and directed a lot of research and resources toward this problem. But some things, like "ants at a picnic," cannot be totally eliminated, even with a good loss control program.

We have also focused on litigation and legislation. A legal theory referred to in shorthand as the "two-inch" rule has developed. This started out as a guideline used to decide when a sidewalk needed repair. If the rise between the two adjacent sidewalk panels was less than two inches, then repairs were not ordered. Later, this guideline was accepted by the court and published in an opinion, which became controlling law. As time went by, the decision adopting the two-inch rule was undermined, and the legislature stepped in to resurrect the two-inch rule. What this legislation did was create a "rebuttable inference" that a sidewalk with a discontinuity defect of less than two inches is "in reasonable repair."

Over time, we learned that the court was not interpreting this new legislation as strongly as we had hoped and thought it would.

House Bill 5491 was recently introduced to clarify the original intent of this legislation. HB5491 deletes the word "inference" and substitutes the word "presumption," creating the new standard of a "rebuttable presumption."

While to many readers, the difference between an "inference" and a "presumption" may not seem that significant, in the courts, it is the difference between winning and losing. The new bill will also clarify that the municipality must have actual knowledge of the problem. The previous legislation provided the added language "or in the exercise of reasonable diligence, should have known." While this obligation of "should have known" does not appear to be a problem at first reading, after watching the court apply this requirement several times, it becomes clear that the courts view of "reasonable diligence" is not what we originally expected.

Support for, and passage of, HB 5491 will greatly aid defense of future claims.

becoming known about this program, its far-reaching impact is being felt. The obvious burden and responsibility carried by an RRE in meeting the reporting requirements is underscored by the monetary penalties that are going to be assessed: \$1,000 per day per claim not reported. Many questions have gone unanswered, simply because the government is still working on the procedures and computer programming necessary to implement this massive reporting requirement.

At this time, it is clear that Medicare will require an entity to comply as long as it is responsible for a settlement or other payment to a Medicare beneficiary, whether the entity is a private corporation or a local branch of government. We here at MMRMA are taking the necessary steps to register MCCRMA as a RRE and, thereafter, to report as necessary. We are also looking at how the new legislation will affect our ability to settle claims with Medicare recipients. At least in the short term, it is anticipated that Medicare will be overwhelmed with the new information coming in and the invitations to participate in individual case settlement negotiations or to provide information on lien amounts. Just how this will affect the speed and timing of settlements remains to be seen. It will no longer be possible to disburse settlement proceeds without knowing what is owed to Medicare and providing for reimbursement. It may also become necessary to include Medicare as a payee on all settlement checks that it might have an interest in. It is also conceivable that the cost of settling a claim may increase. In the past, a party to a lawsuit might be willing to settle for a lower amount because liability is questionable, but this may not be possible when the damages are great, medical expenses are high, and Medicare wants 100% reimbursement. This might force more trials, with resulting higher legal costs, so that a court-ordered apportionment of damages relative to medical bills can be achieved.

MMRMA will continue to monitor this situation and will keep you advised as best we can.

### **Liability Claims**

Last quarter, we closed over 290 liability claims. Over half of those cases were closed with no payment to the claimant. During that same period, we opened over 260 new claims; this reduced our pending in this category.

### **Liability Claims with Attorneys (NOC)**

We received 62 last quarter and closed 31, which increased our pending count to 119.

### **Litigation**

As a result of closing 115 lawsuits, while taking in 79, our pending count was reduced to 479.

**Subject:** LUCA Appeals Process

Dear Clerk,

We finished the LUCA Appeals process on behalf of all local communities last Friday. We were only allowed to review an address marked for deletion from the Census Bureau's Master Address List. We appealed 801 addresses out of the 4,483 we reviewed, which an appeal rate of almost 18%. Each address that we appealed required paper documentation from the tax assessment database (BS&A) or a GIS map showing the aerial photo and labeled addresses. It was an interesting process where we found many vacant lots and wrong addresses, but also entire sides of the street that would have been deleted if we did not submit an appeal.

The LUCA Appeals Board will now review the paper documentation and decide if an address should legitimately be removed from the Master Address List. If I receive any feedback from the Appeals Board, I will be sure to let you know. If you have any questions, please don't hesitate to contact me.

Cheers,  
Keri

To Whom It May Concern:

I would desperately ask the board members of Genoa Township to consider banning all burning in our area. I live on White Willow Ct. and a number of my neighbors burn constantly. Sunday when one of my sons visited, he too was appalled by the amount of smoke that filtered in my house even though all my windows were tightly closed. Even though it was 68 degrees outside, I could not open a window to get fresh air because there wasn't any.

My husband has been critically ill and stays in a hospital bed in the middle of my living room. He has difficulty breathing and there are days when it smells like my house is on fire. Sometimes neighbors burn other things, not just leaves, and the smell is awful. I have always gotten along with neighbors and intend to do so here, but even though I asked a few of them to please try to wait until the wind was not blowing and explained to them how bad it was for my husband, the burning has continued. One neighbor burns two fires....one in the front of his house and the other in the back. I have gotten so that I hate living here due to the fact that toxic smoke permeates my house constantly.

I moved out here almost five years ago planning to enjoy the lovely area, but due to this burning problem, there has been no enjoyment during the fall period especially, although a few neighbors burn things all year.

I had thought of contacting the newspapers, but thought I would address the problem to you people first.

Please contact all the board members regarding this issue. I would do so myself, but failed at finding individual email addresses. I would be happy to talk to anyone and everyone about this problem. You may forward this email to anyone and everyone who can possibly help alleviate this situation.

Thank you.

Agnes Williamson

GENOA TOWNSHIP  
SCHEDULE OF MEETINGS  
April 1, 2010 thru March 31, 2011

Meetings will be held at the Genoa Township Hall located at 2911 Dorr Road. The Township Board meets at 6:30 p.m., the Zoning Board of Appeals meet at 6:30 p.m. The Planning Commission meets at 6:30 p.m.

Regular meetings of the Township Board are generally scheduled for the first and third Monday of every month. The Planning Commission generally meets the second and if necessary, the fourth Monday; and the Zoning Board of Appeals meets the third Tuesday of each month. Holidays will occasionally disrupt the meeting schedules.
