Some good rules to go by is to make it as easy as you can for the garbage person to pick the item up and put it into the truck. Plus keep in mind that the garbage truck is 4' wide. If you keep your item to this size it will fit into the truck with ease. Breaking glass before is safer and will avoid glass on the street.

When you come to purchase a large item sticker we will ask what you are putting out to help determine how many stickers you will need.

If the item you are putting out is metal put the item out a couple of days ahead of your garbage day without the garbage sticker on it. There are people out there that drive around and collect metal to turn into money at the scrapyards.

We only take cash or check for a large item sticker.
